

Wall Picture 3D - Egyptian Hills

© www.inspiration-for-glass.com

Room design - 3D - Egyptian hills - Original size approx. 113 x 40 cm / 44" x 16"

“ Egyptian hills “

Clear geometric shapes, composed in three dimensions, this is the feature of this wall design.

Every glass pyramid breaks and reflects the light in a different way, an interesting way to look at, course of colors and lights will come out and can be admired.

For this work, transparent glasses are best, because of their iridescent coating (Bullseye).

The texture (Spectrum RR) lets through some of the light and reflects one part - a very brilliant choice.

Material used in the original:

Pyramids:

Bullseye 1320-30F iri, yellow
Bullseye 1025-31F iri, light orange
Bullseye 1125-31F iri, orange
Bullseye 1122-31F iri, red
Bullseye 1116-31F iri, aquamarine
Bullseye 1464-31F iri, blue
Bullseye 1101-44F iri, clear

clear background: Spectrum 100 Chord

Wall mounting: 4 x 4596100 distance holder

Material, alternative made with Spectrum Glass “ RR “:

Pyramids:

Spectrum 161 RR, yellow
Spectrum 171 RR, orange
Spectrum 151 RR, red
Spectrum 533-3 RR, aquamarine
Spectrum 1345 RR, blue
Spectrum 100 RR, clear

clear background: Spectrum 100 Chord

Wall mounting: 4 x 4596100 distance holder
