## CandleLite " Jalila "

CandleLite " Jalila " approx. 14 x 14 x 26 cm ( 5,5 x 5,5 x 10" )

### Material for one light:

textured clear glass

2 different colors cathedral glass

mirror for the bottom

This example shows:

Spectrum 100 CZ, clear

Spectrum 151 RR, red

Spectrum 171 RR, orange

pattern in original size

If you cut the corners at the mirror, you produce small air holes in the bottom and later the candle burns better.

I recommend to coat the mirror edge with mirror protection varnish. It is also useful to make the copper foil overlap at the mirror's coated side a little wider.

After the final cleaning of the light I recommend to paint the bottom - this looks more professional than the usual mirror coating.

The rubber bumps ensure the perfect stand even on sensitive ground.
