

Print test:

Please pay attention to this print advise before you print pdf file pattern from inspiration-for-glass website:

Print tip:

Please, pay attention to the fact that you do not reduce the pictures size, so also drawings, while printing the file.

To the control the size you compare the drawing illustrated here to the measurement. If the squares in your printout are exactly 50x50mm and 100x100mm, you have made everything right.

If no, please check the printer setting (dimensions adaptation) and do not change this on "adapt" = adaptation: "none".

50 x 50 mm
(5 x 5 cm)

100 x 100 mm
(10 x 10 cm)
