CandleLite “Cala”

CandleLite “Cala” approx. 15 x 25 cm (6 x 10")

Material for one light:

- textured clear glass
- 2 different colors cathedral glass
- mirror for the bottom

This example shows:

Spectrum 100 CZ, clear
Spectrum 151 RR, red
Spectrum 171 RR, orange

pattern in original size

24 x

bottom cut from mirror

I recommend to coat the mirror edge with mirror protection varnish.
It is also useful to make the copper foil overlap at the mirror's coated side a little wider.

If you grind a few pieces of glass in the lower row slightly shorter, later this small air holes occur and the candle burns more beautiful.

After the final cleaning of the light I recommend to paint the bottom - this looks more professional than the usual mirror coating.

The rubber bumps ensure the perfect stand even on sensitive ground.
