## Garden Glass Art “ Square - Diamond “

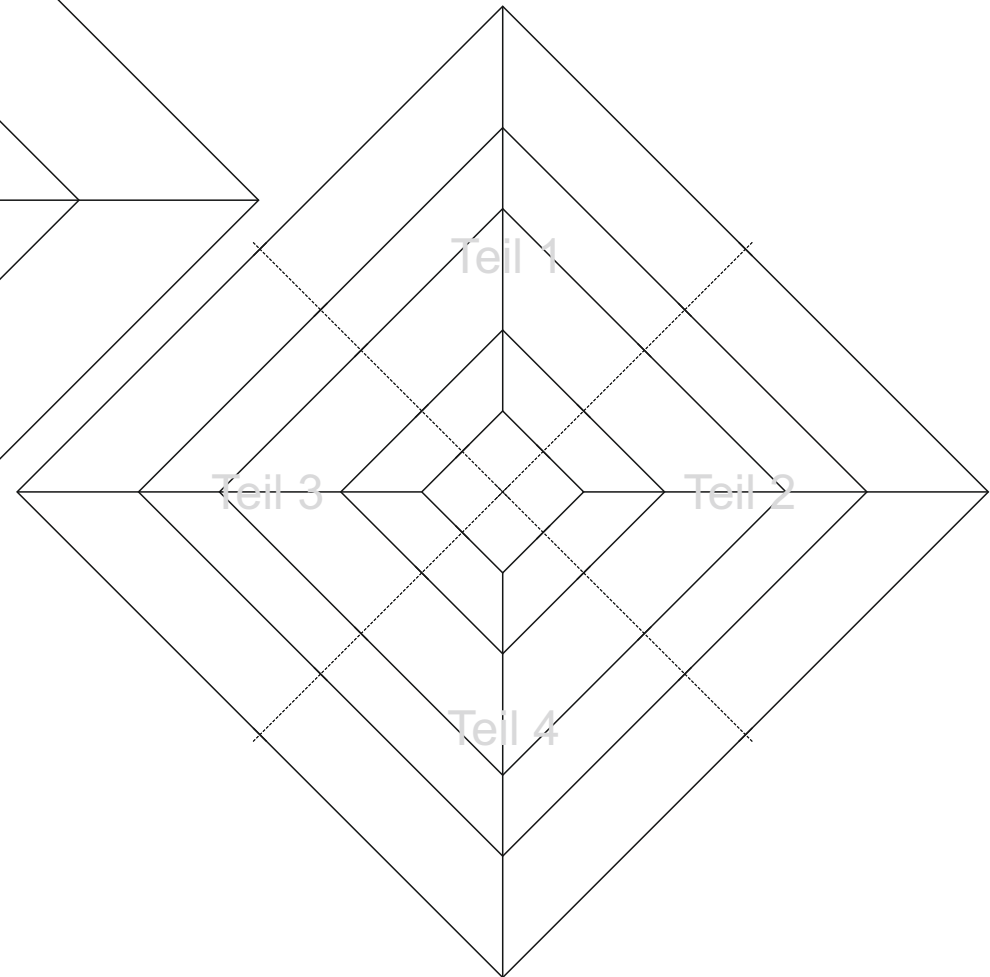

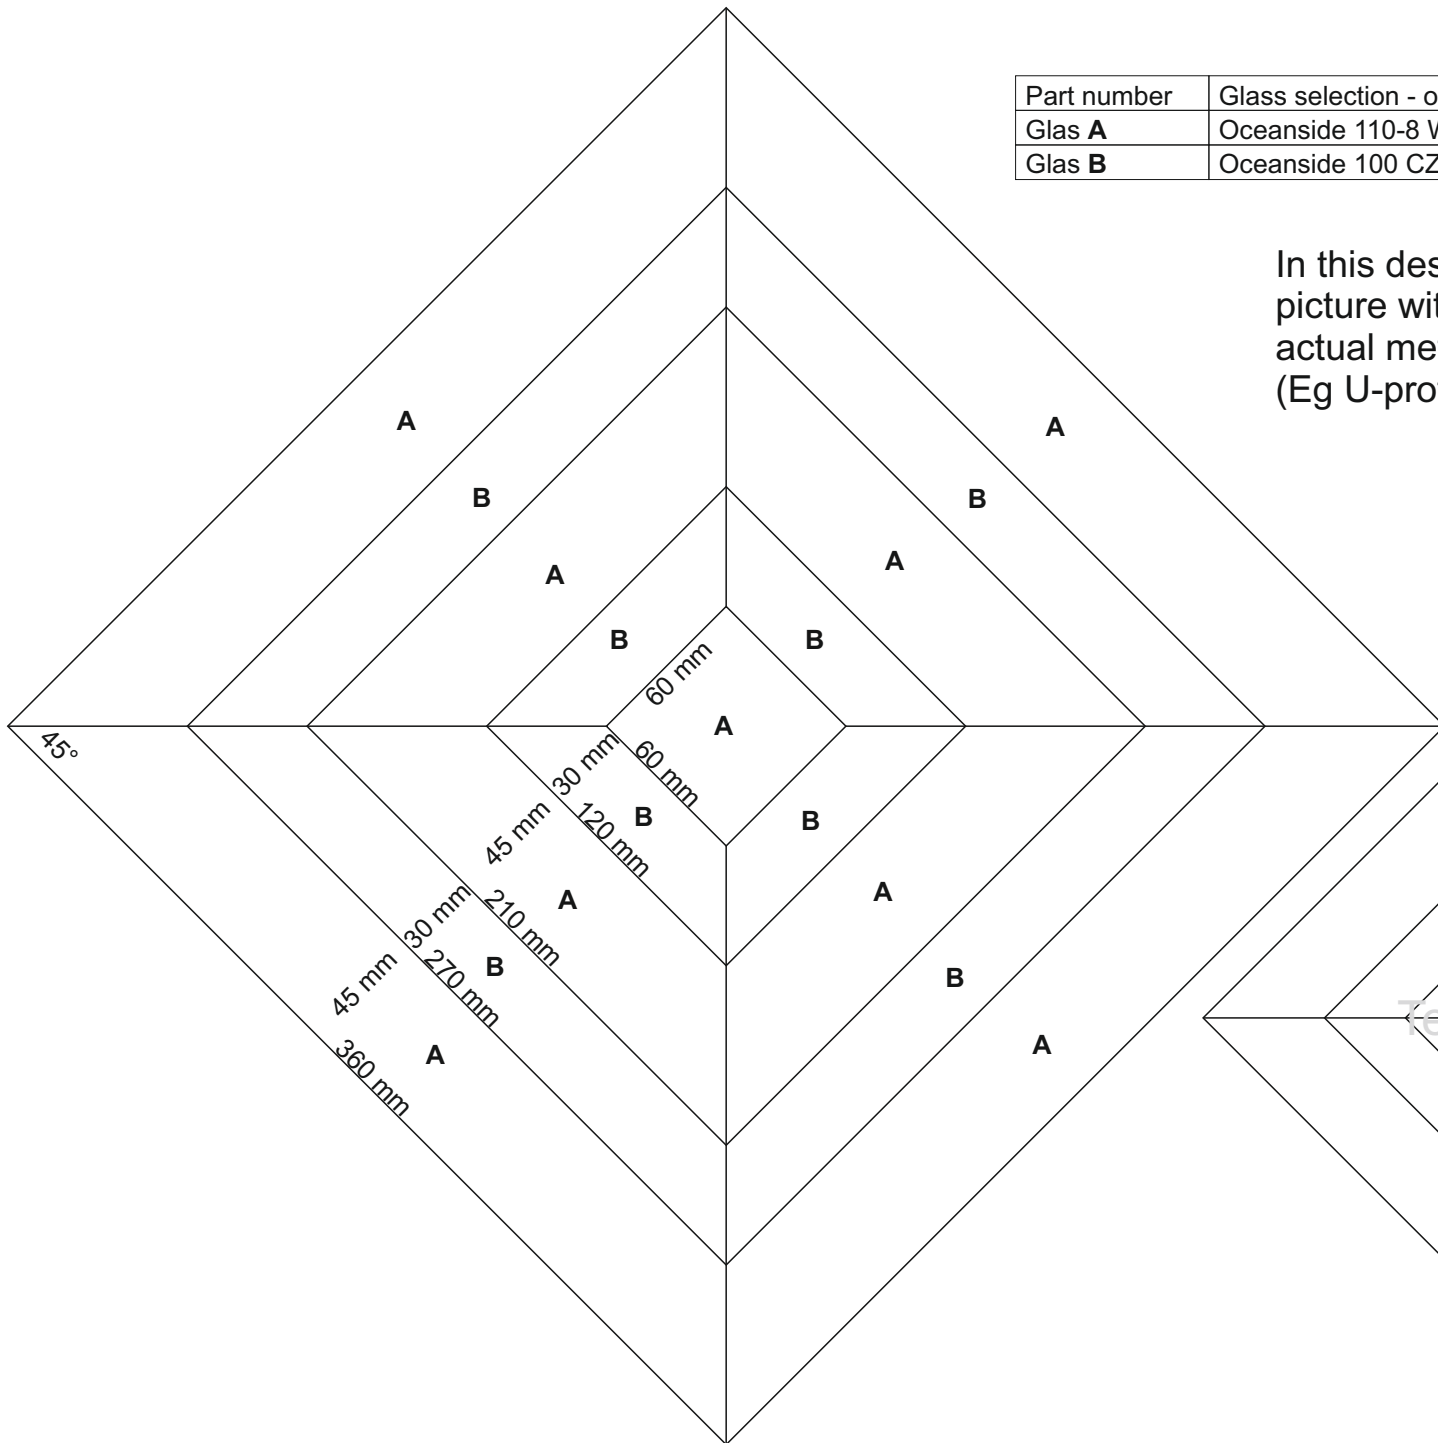

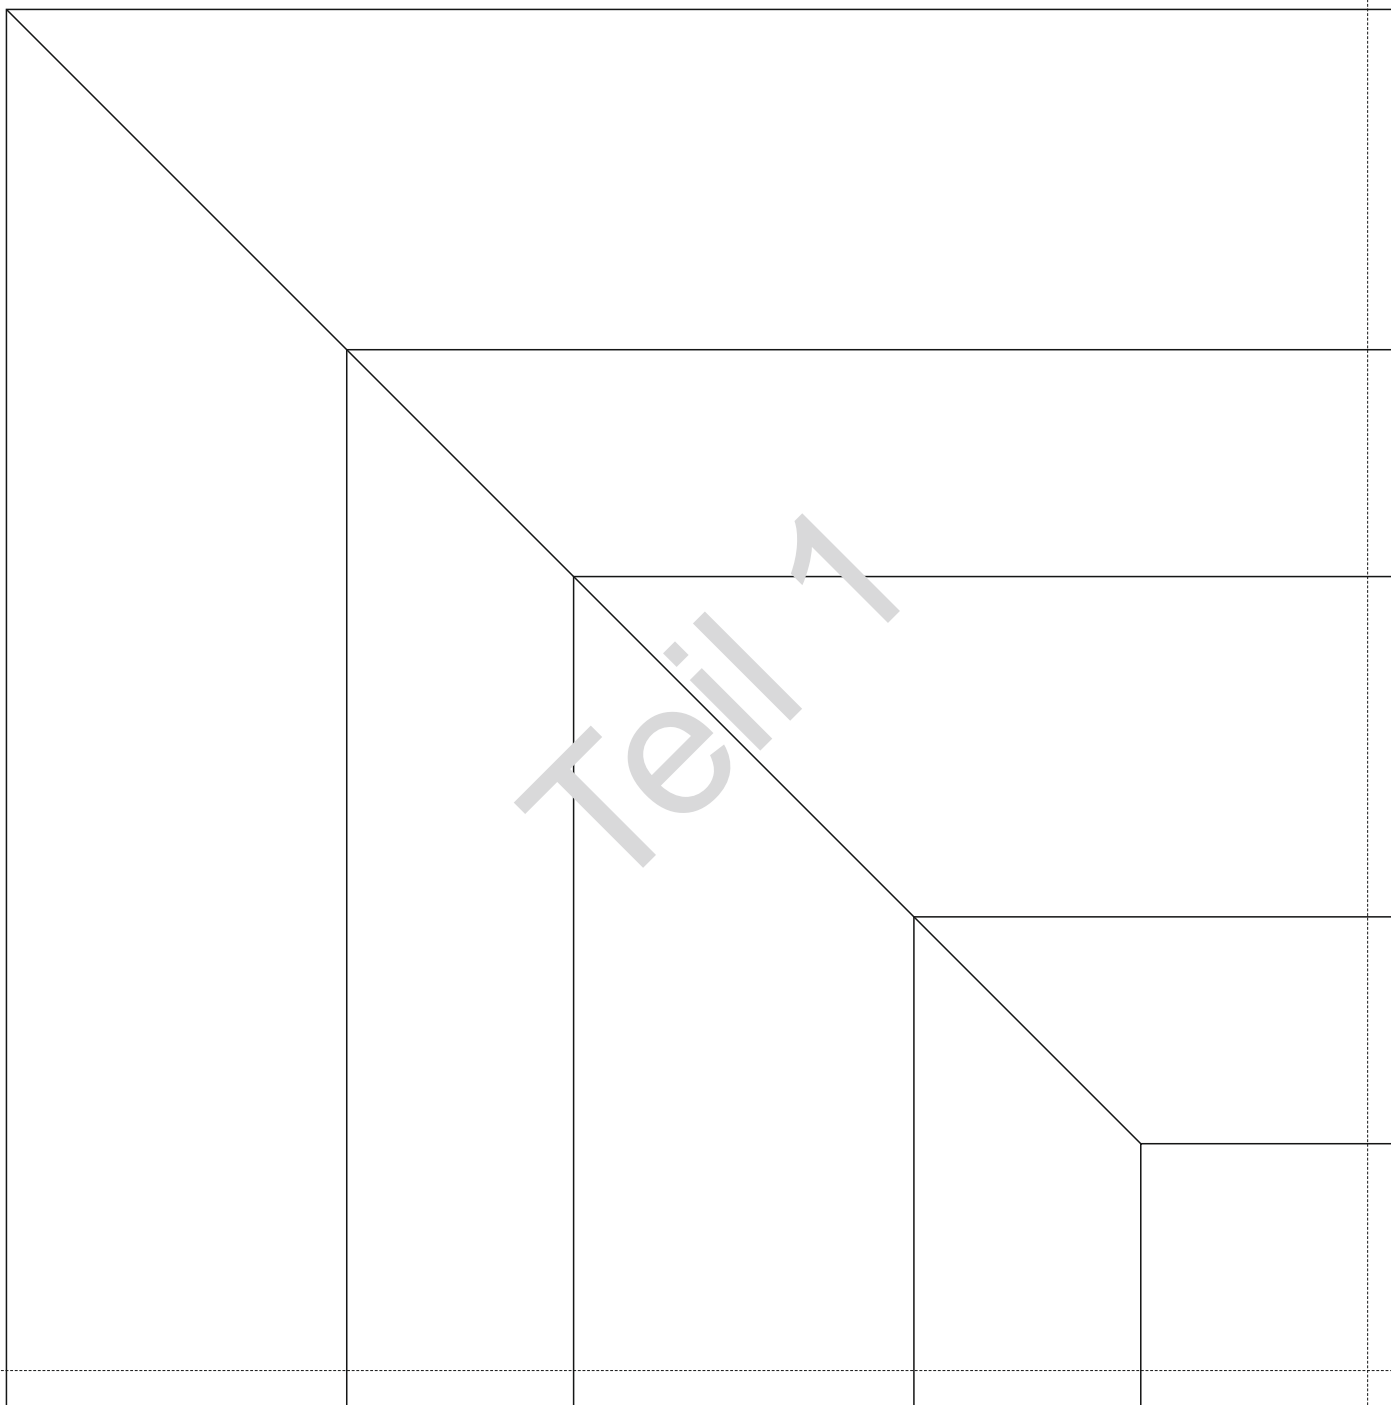

All information without guarantee

“ Square - Diamond “ 51 x 51 cm + 44 x 72 cm

Part number	Glass selection - original
Glas <b>A</b>	Oceanside 110-8 W
Glas <b>B</b>	Oceanside 100 CZ

In this design, I recommend to enclose the glass picture with a U-profile before you solder the actual metal frame.  
 (Eg U-profile. 4223200 brass U-bar 4x4mm)

The principle is simple ..  
To the actual glasswork you solder one  
Metal construction.  
As a stand you use a metal pipe - ready.

A few general pointers to those in the metal frame  
used materials:

The materials should in the color glass trade actually too  
be known by these numbers:

4252000 - You need 2 meters  
1 meter brass tube with outside diameter 5mm  
and wall thickness 0.5mm

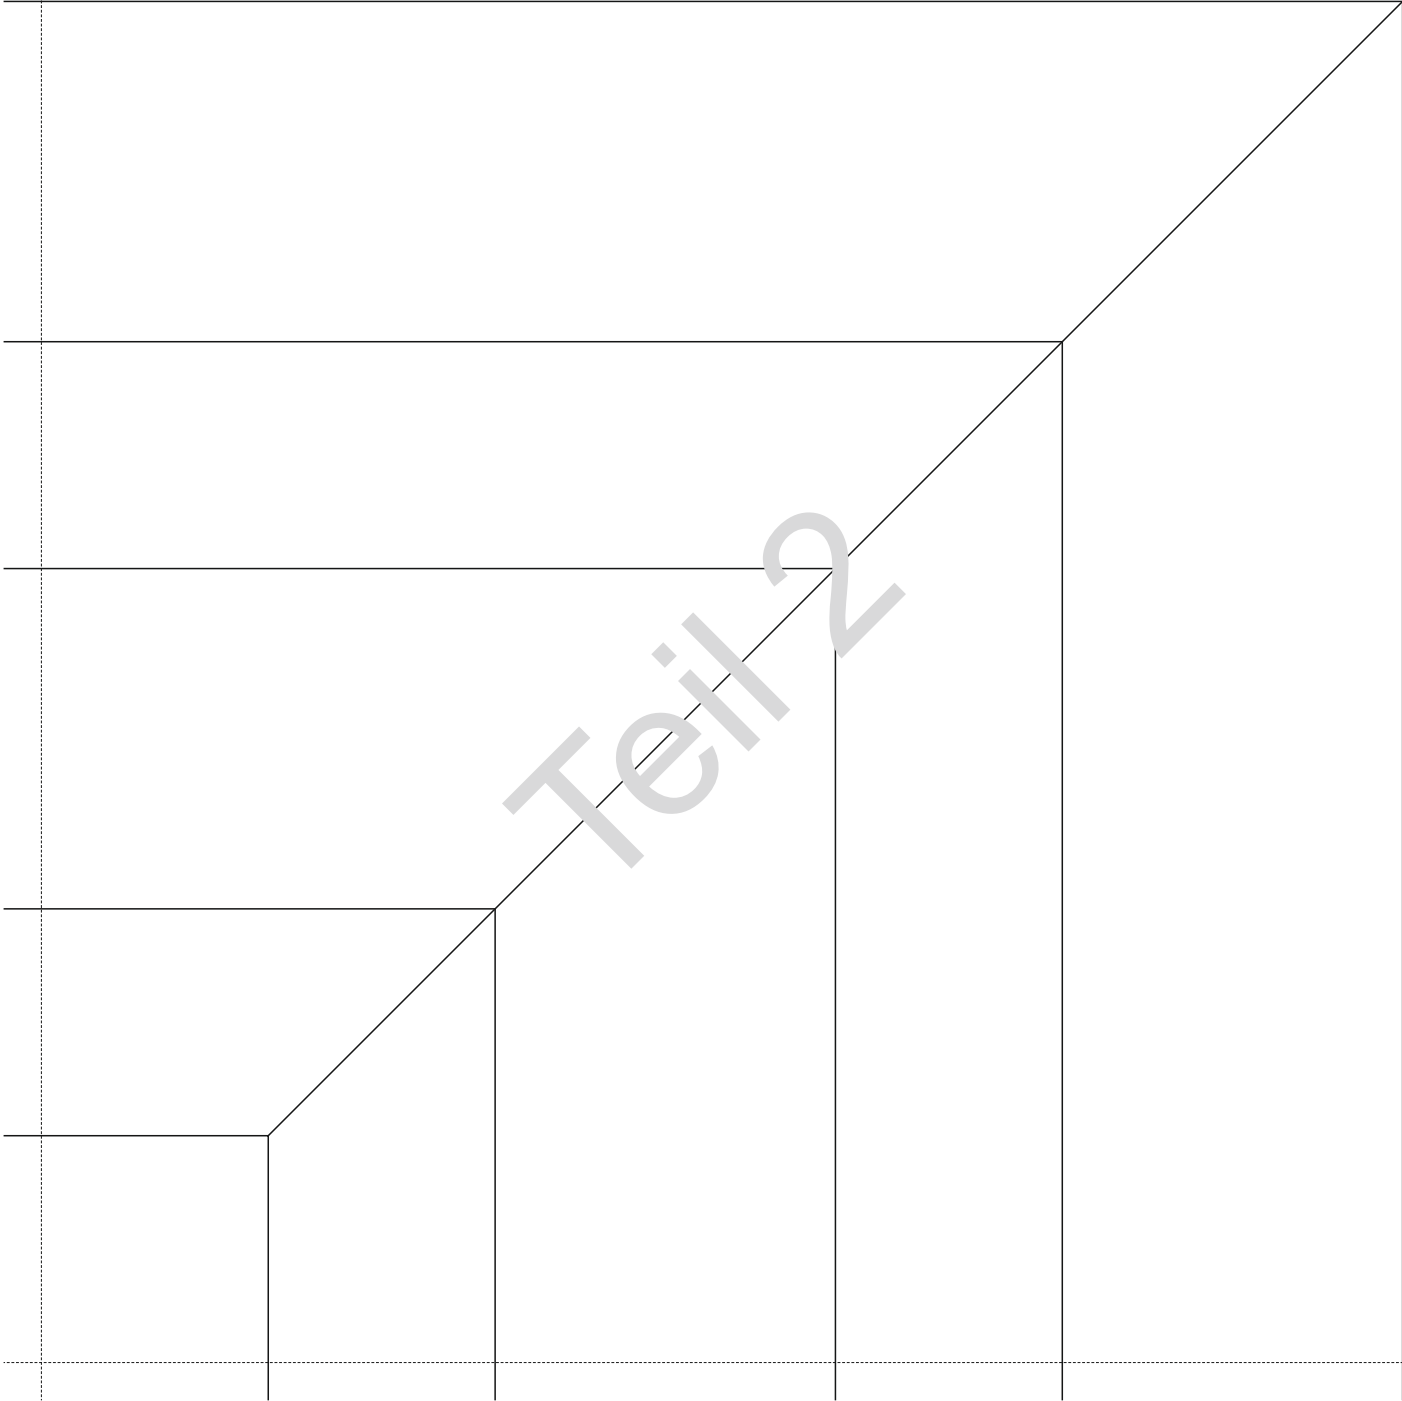

4251800 - You need 0.5 meters  
1 meter brass tube with outer diameter 2mm  
and wall thickness 0.5mm

4220000 - You need 1 meter  
Metal strip 3.6 x 1mm  
- usually referred to as "tap wrench".

2431800 - You need 2 discs (one is soldered,  
the other placed on the copper tube)  
Brass discs diameter 20mm x hole 10mm  
x thickness 2mm

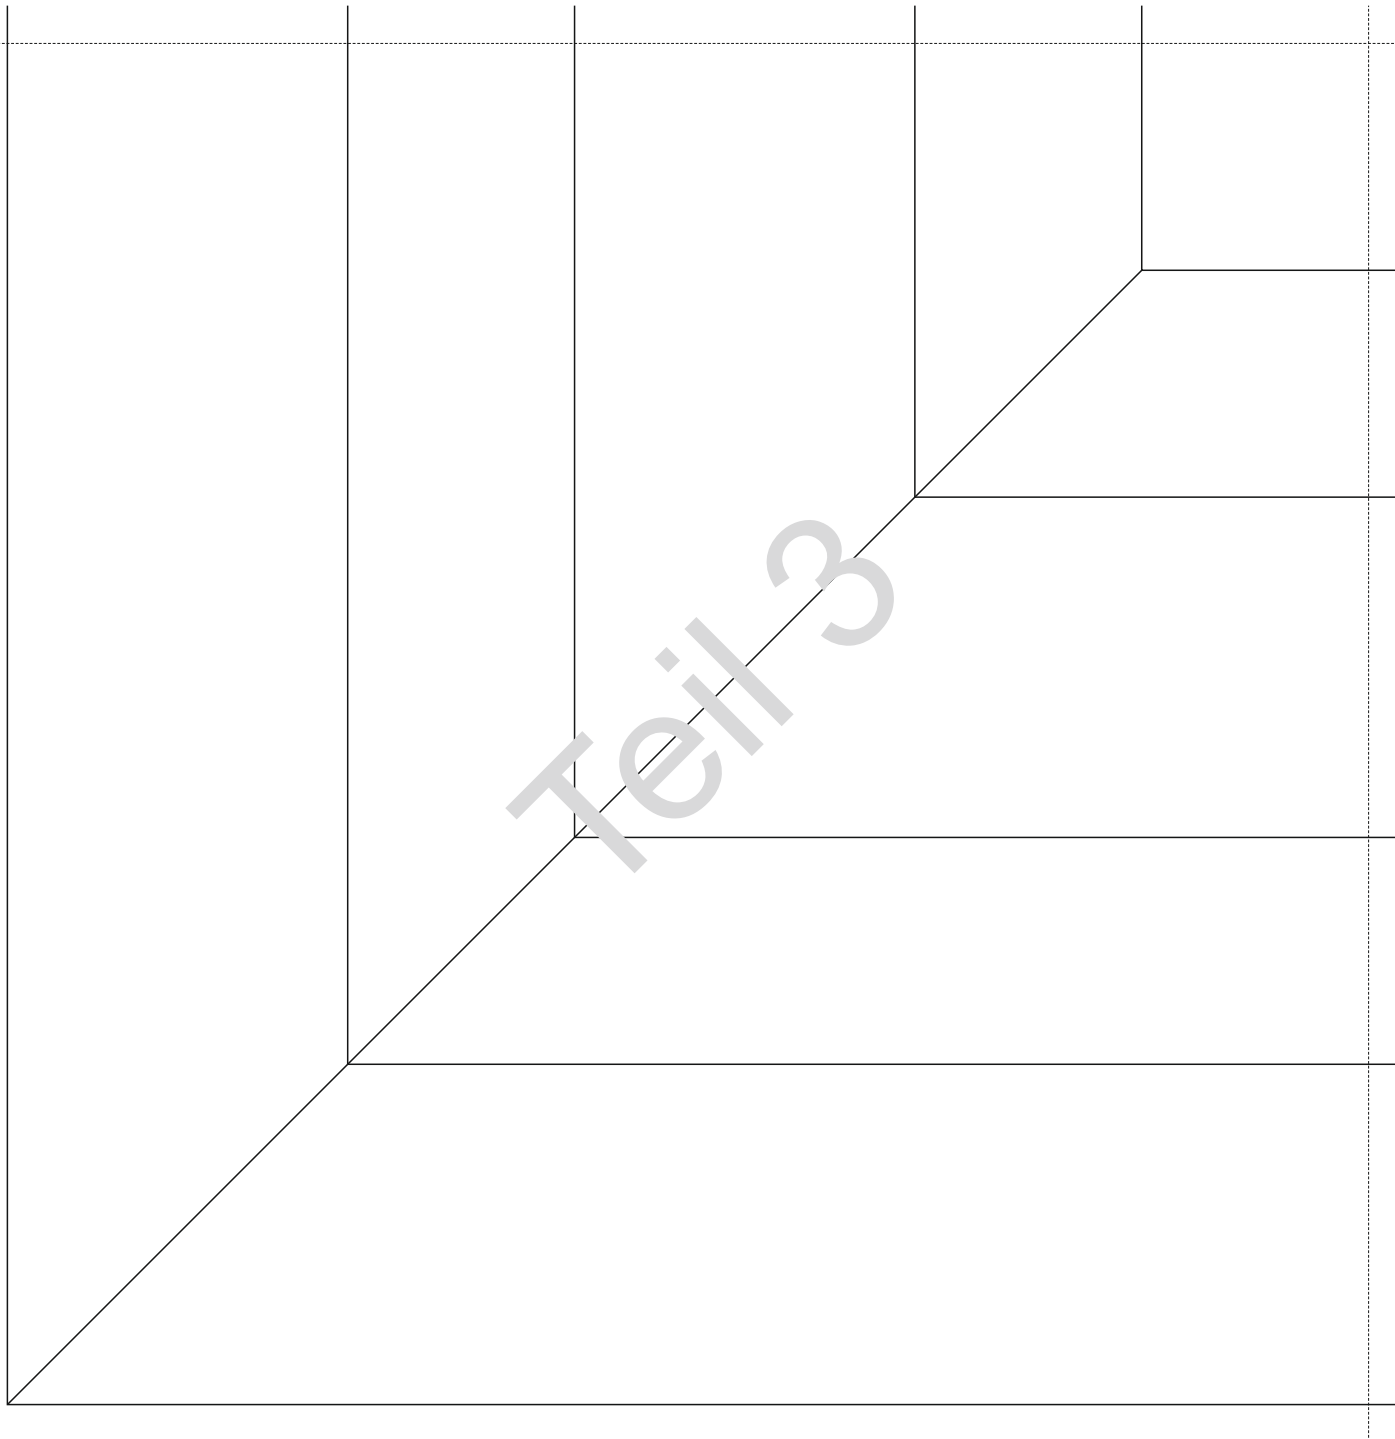

The copper tube with outer diameter 12mm  
and wall thickness 1mm you get in the hardware store.

A detailed construction manual you can  
on the overview page "Garden Art" download  
- You will find a simplified schematic illustration  
but also here on the last page.
