Light objects

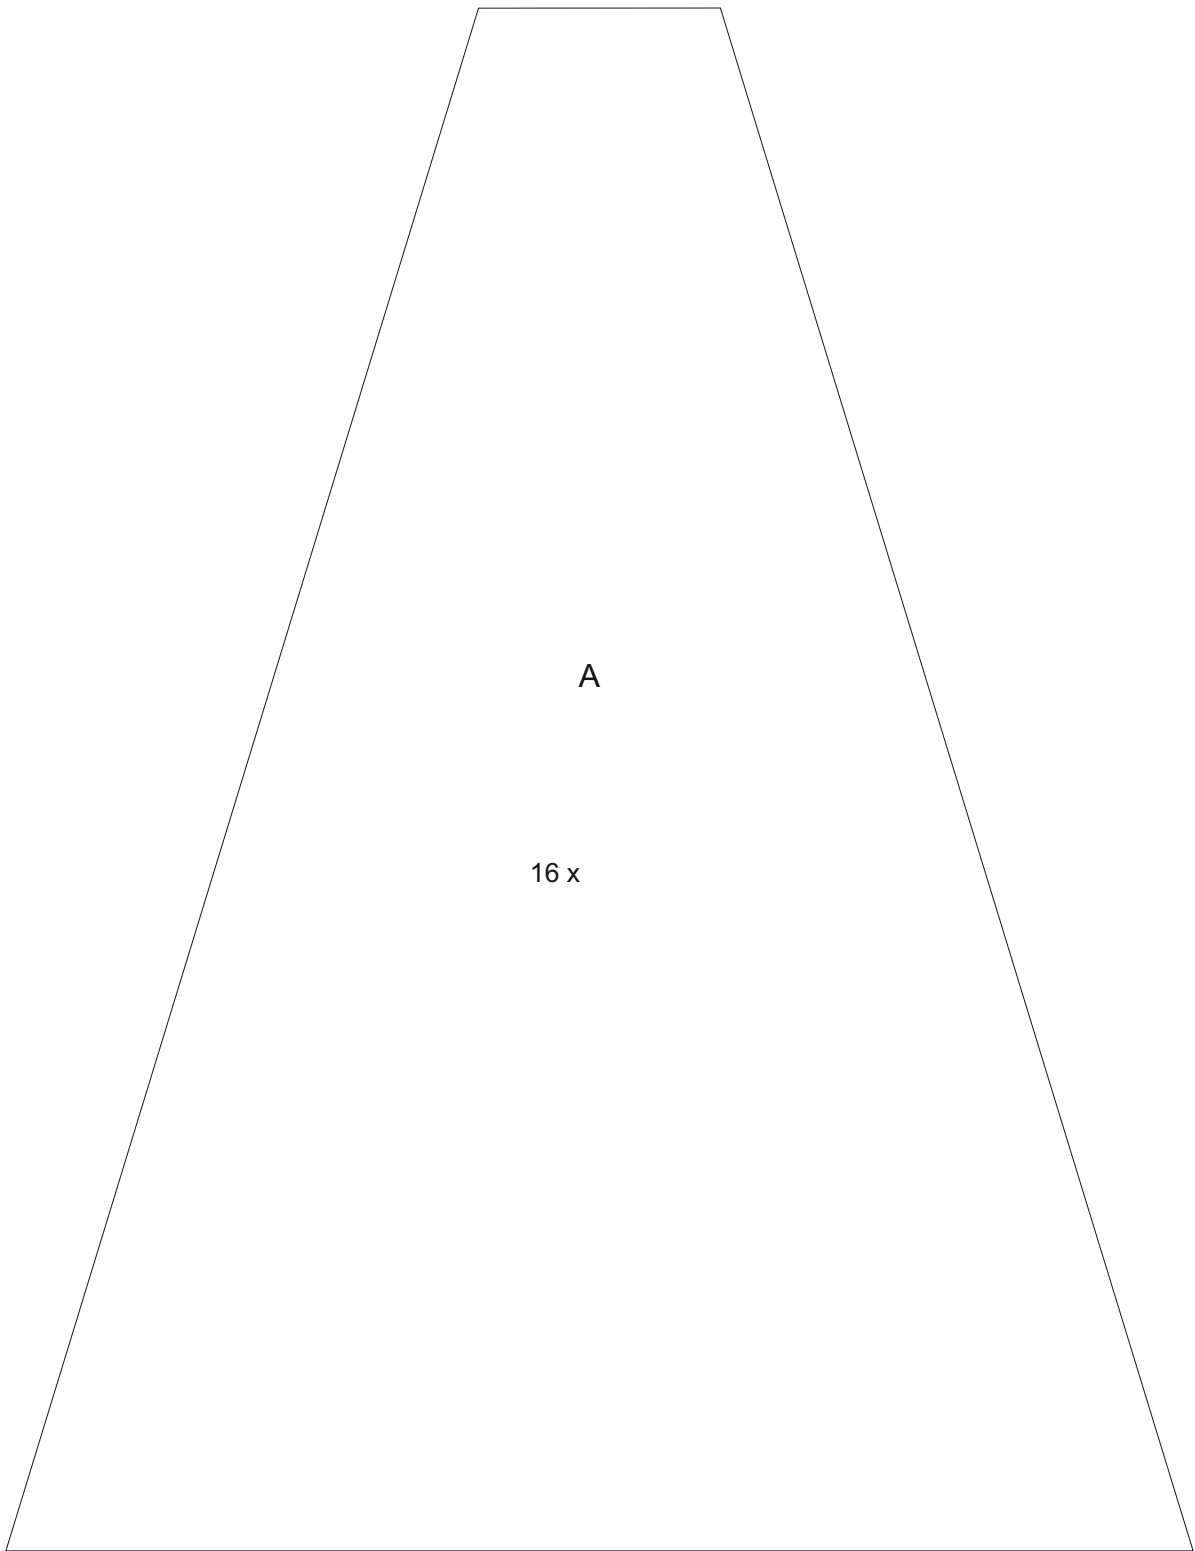

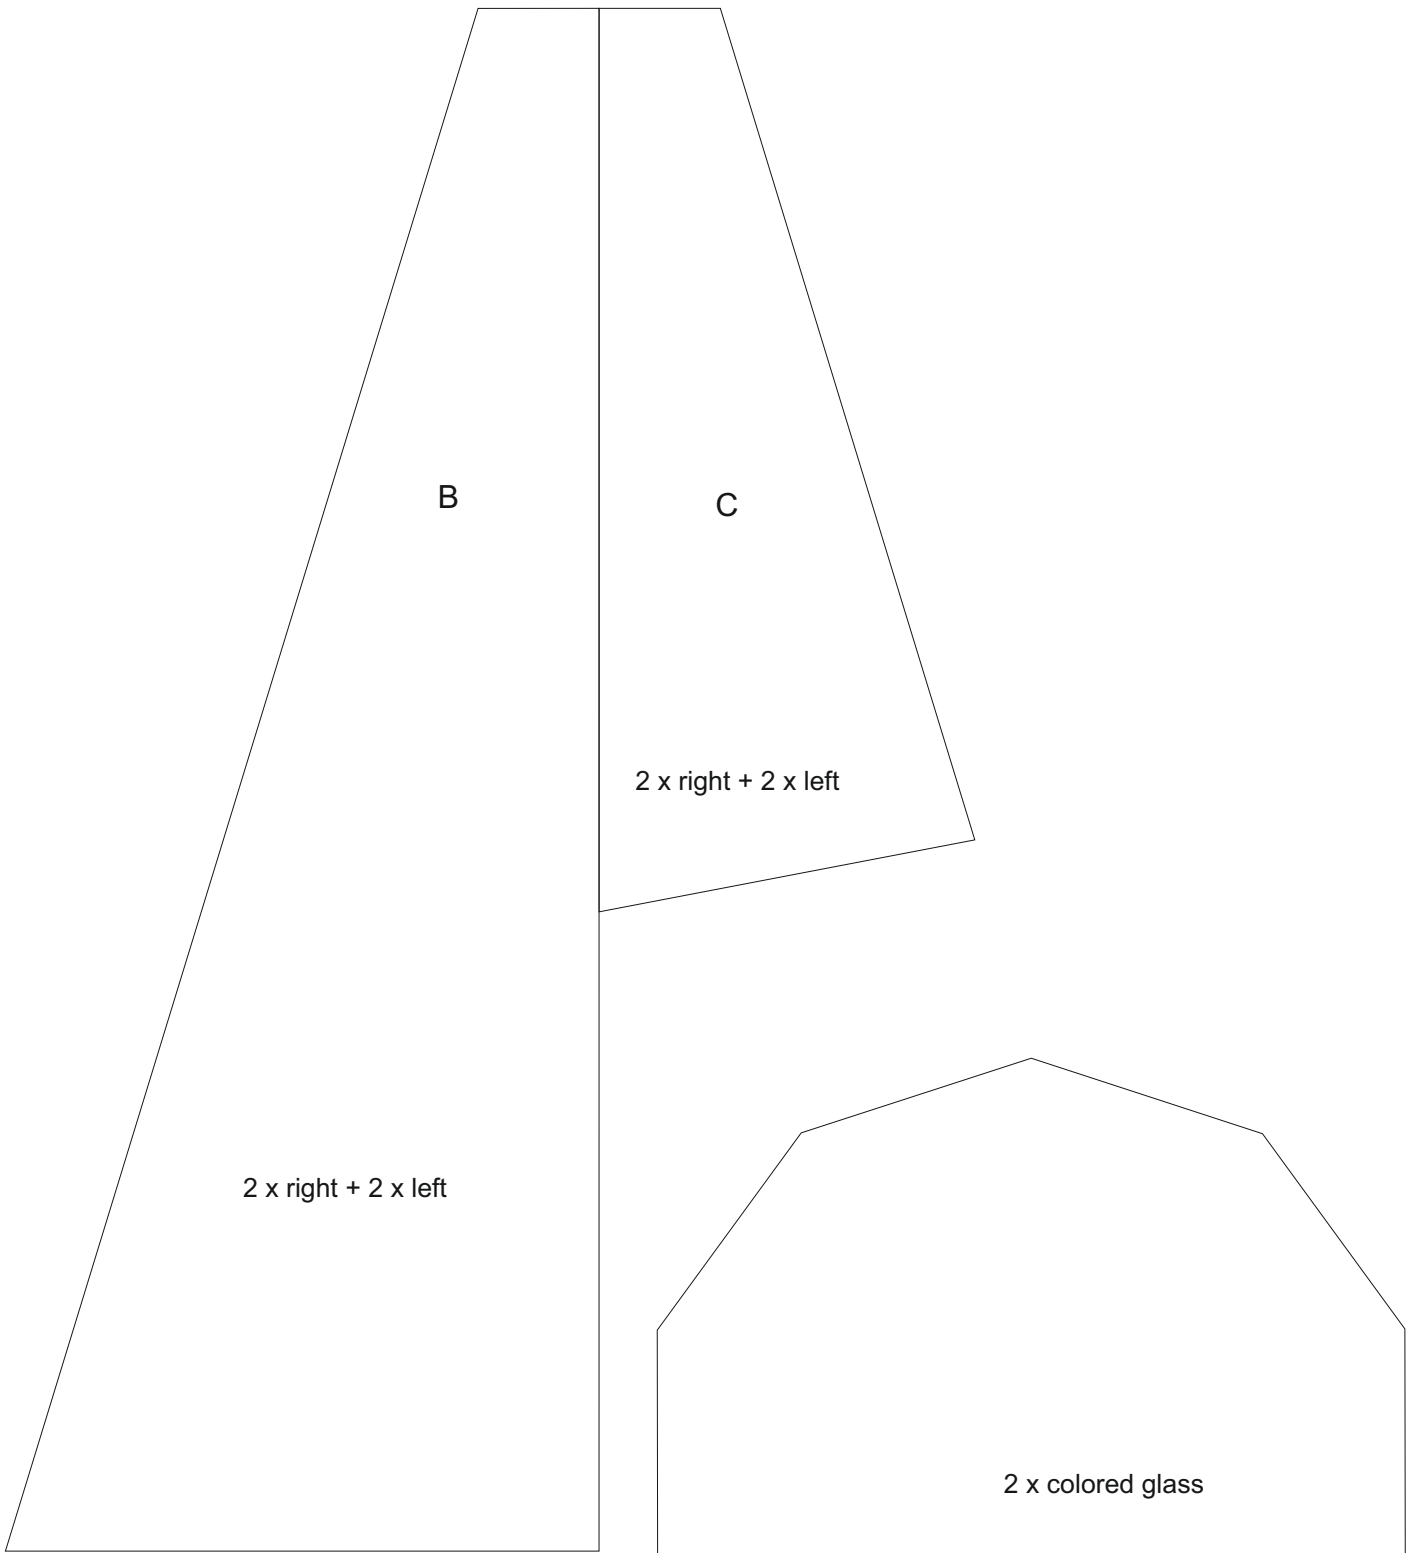

Spin wheel

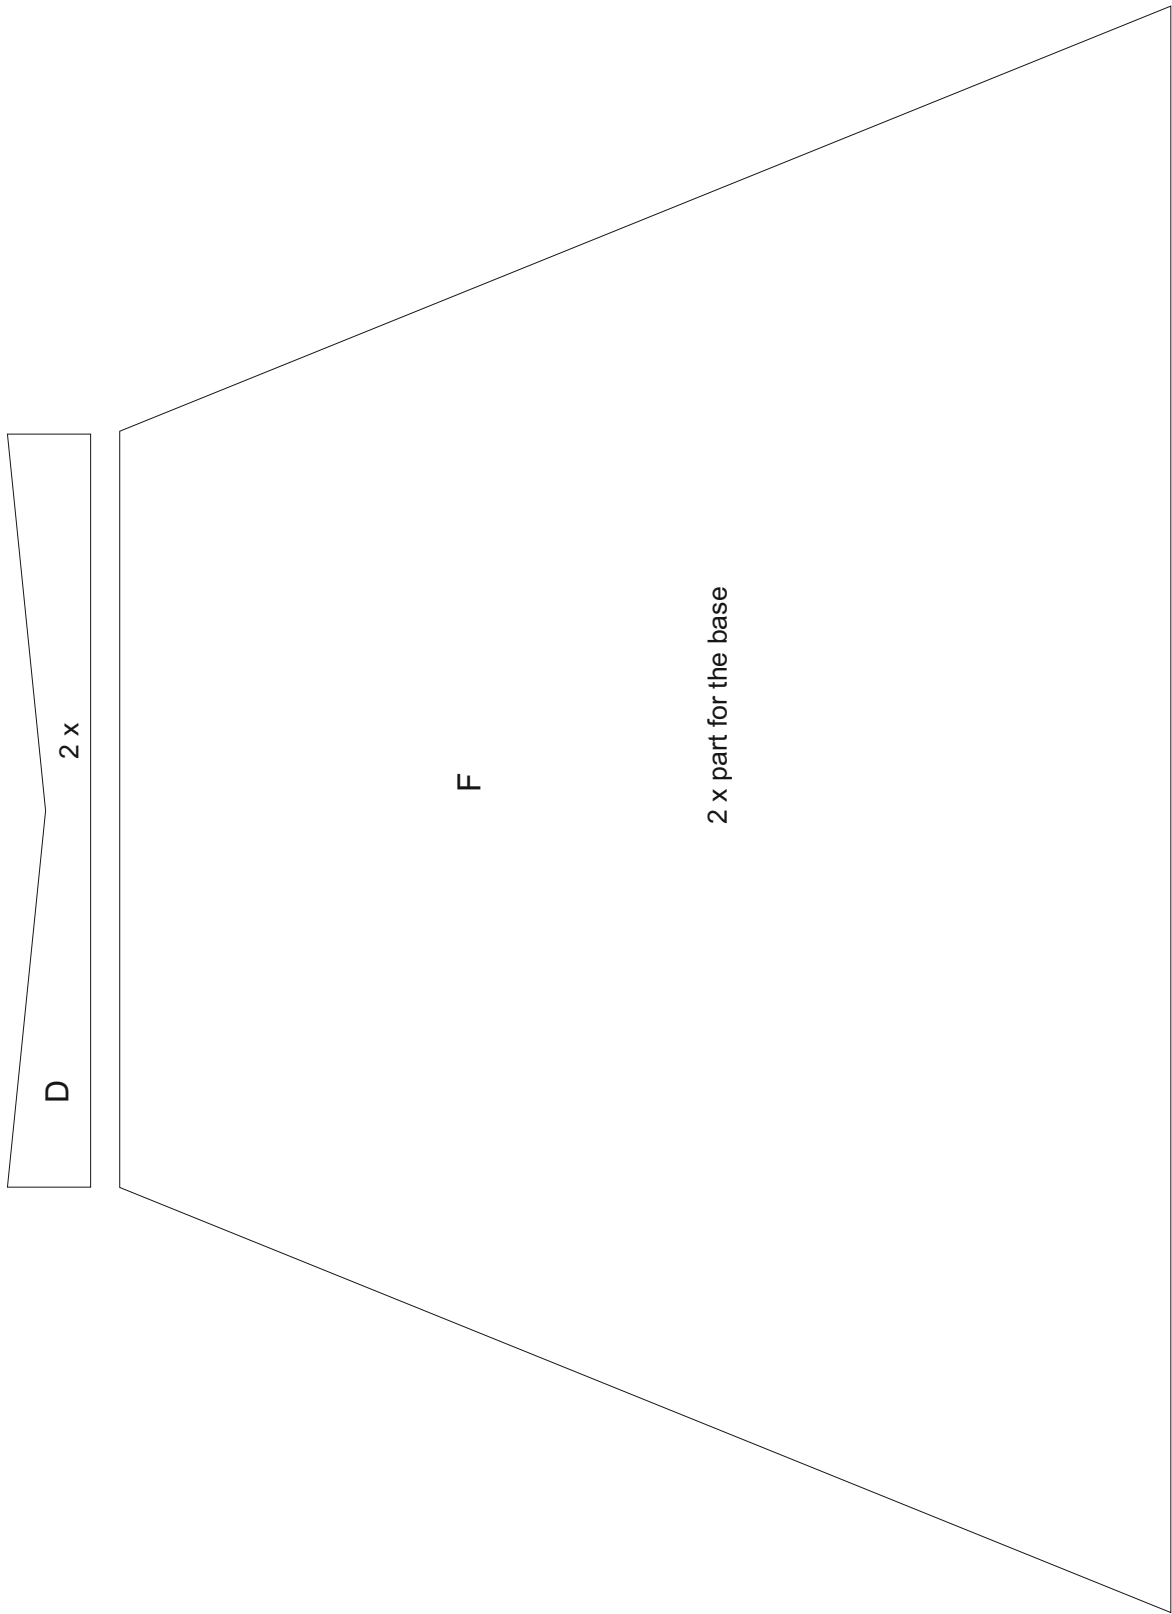

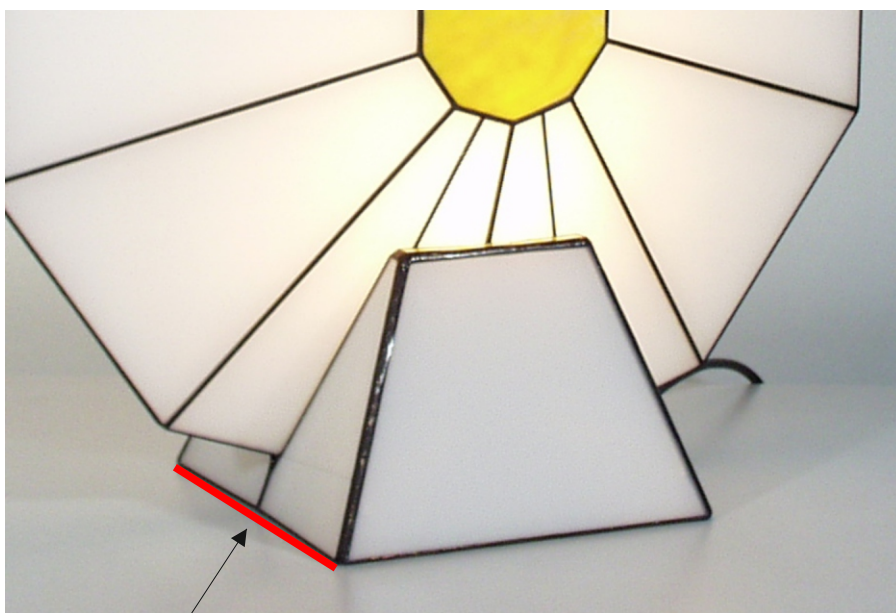

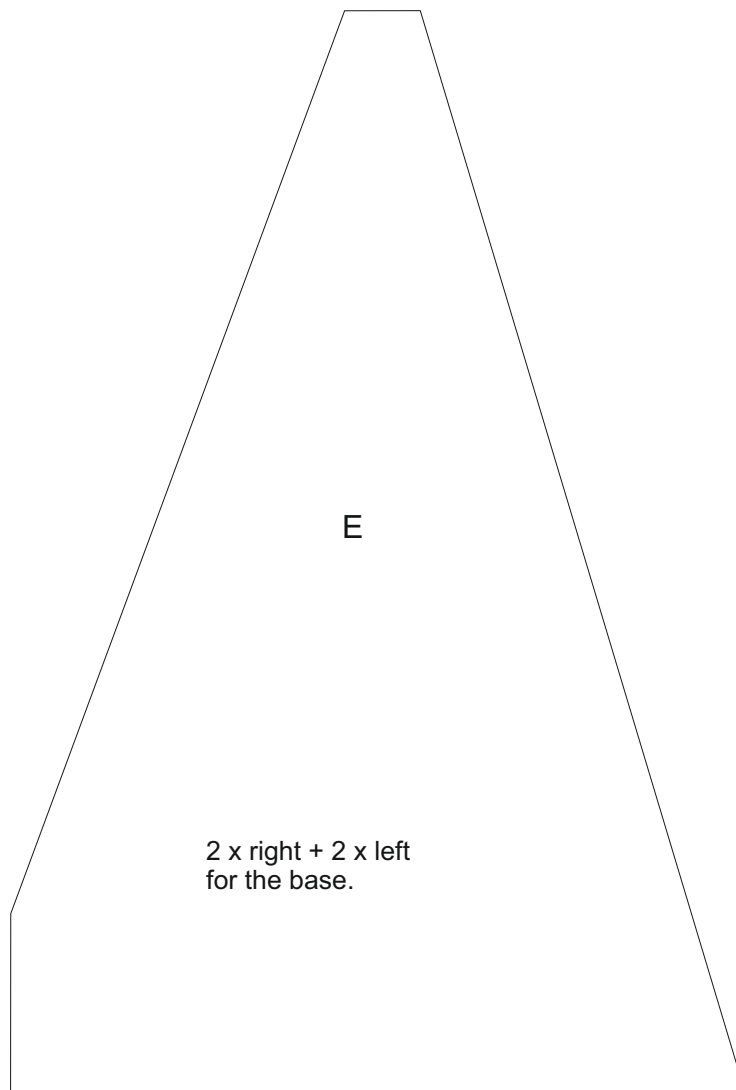

This lamp consists of two parts
Screen (spinning wheel) and base,
which also contains the electric.

- List of materials
Schott Opalika (White flashed glass 4mm) or Spectrum 200 white
Uroboros mottle yellow 00-361
1 x 2415600 spider brass 4-way

Please solder on a reinforcement onto the red spotted line!

Solder the 4-way brass spider (2415600) in the base. On the spider then mount the lamp socket.
The lamp consists of two parts, the screen (spinning wheel) and the holder made of glass, which also contains the electric.
