Living with glass

placemats made from glass..

...with seamed edge

more examples:

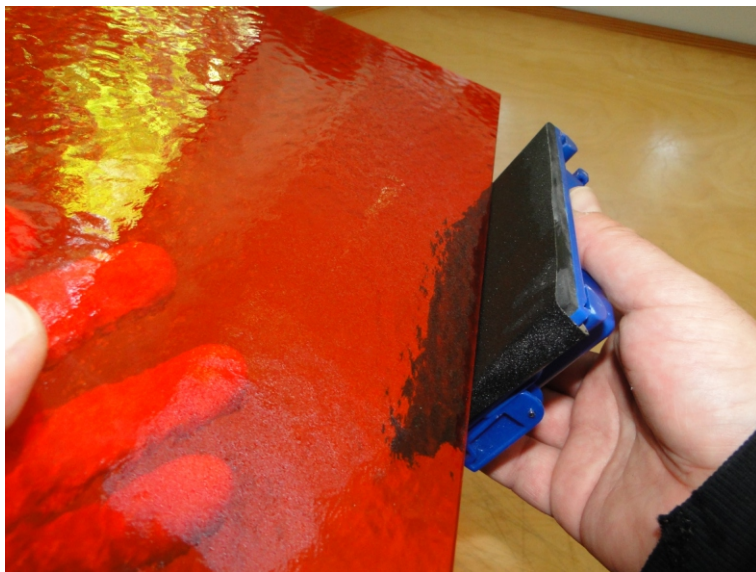

Spectrum 171RR,
size: 29 cm x 45 cm, approx. 12" x 18"

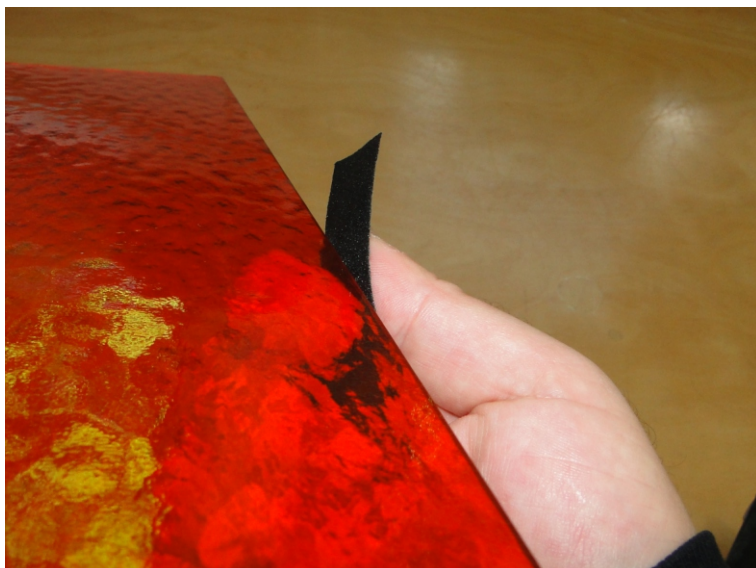

Spectrum 161RR,
size: 29 cm x 45 cm, approx. 12" x 18"

..and how it work..:

After cutting the glass in to size,
you grind the edges with
wet sandpaper (grain 120).

This creates a satin edge.

Individual points which don't shine
satin matt after the first grinding
with the sanding block,
can be easily ground by hand.
