## Room design - **Large Daisy** - Original size approx. 90 cm / 36"

“ Large Daisy “

Dasies are a refreshing change to green meadows , with bright yellow core and pure white petals.

Bring the summer flavor back home, as a large mural of glass.

The semi-transparent, slightly textured on the back, Spectrum 6000-81CC would be outstanding for the design of the petals.

The absolute highlight of the flower center: dichroic coated black Ripple glass.

This type of dichroic, depending on the light and view point, you will get many different impressions and effects .

You should treat yourself to that kind of experience.

For gentle color coordination, I have patined the solder seams in copper.

Overall this is a glass work, which exudes an atmosphere of noble-friendly summer vacation.

Material:

Spectrum 6000-81 CC

Dichroic 3534218 ( UBGR-CY )

Wall mounting: 4 x distance holder 4596100

“Large Daisy “ in detail
