Pattern in scale 1:2  
Original size on the next pages

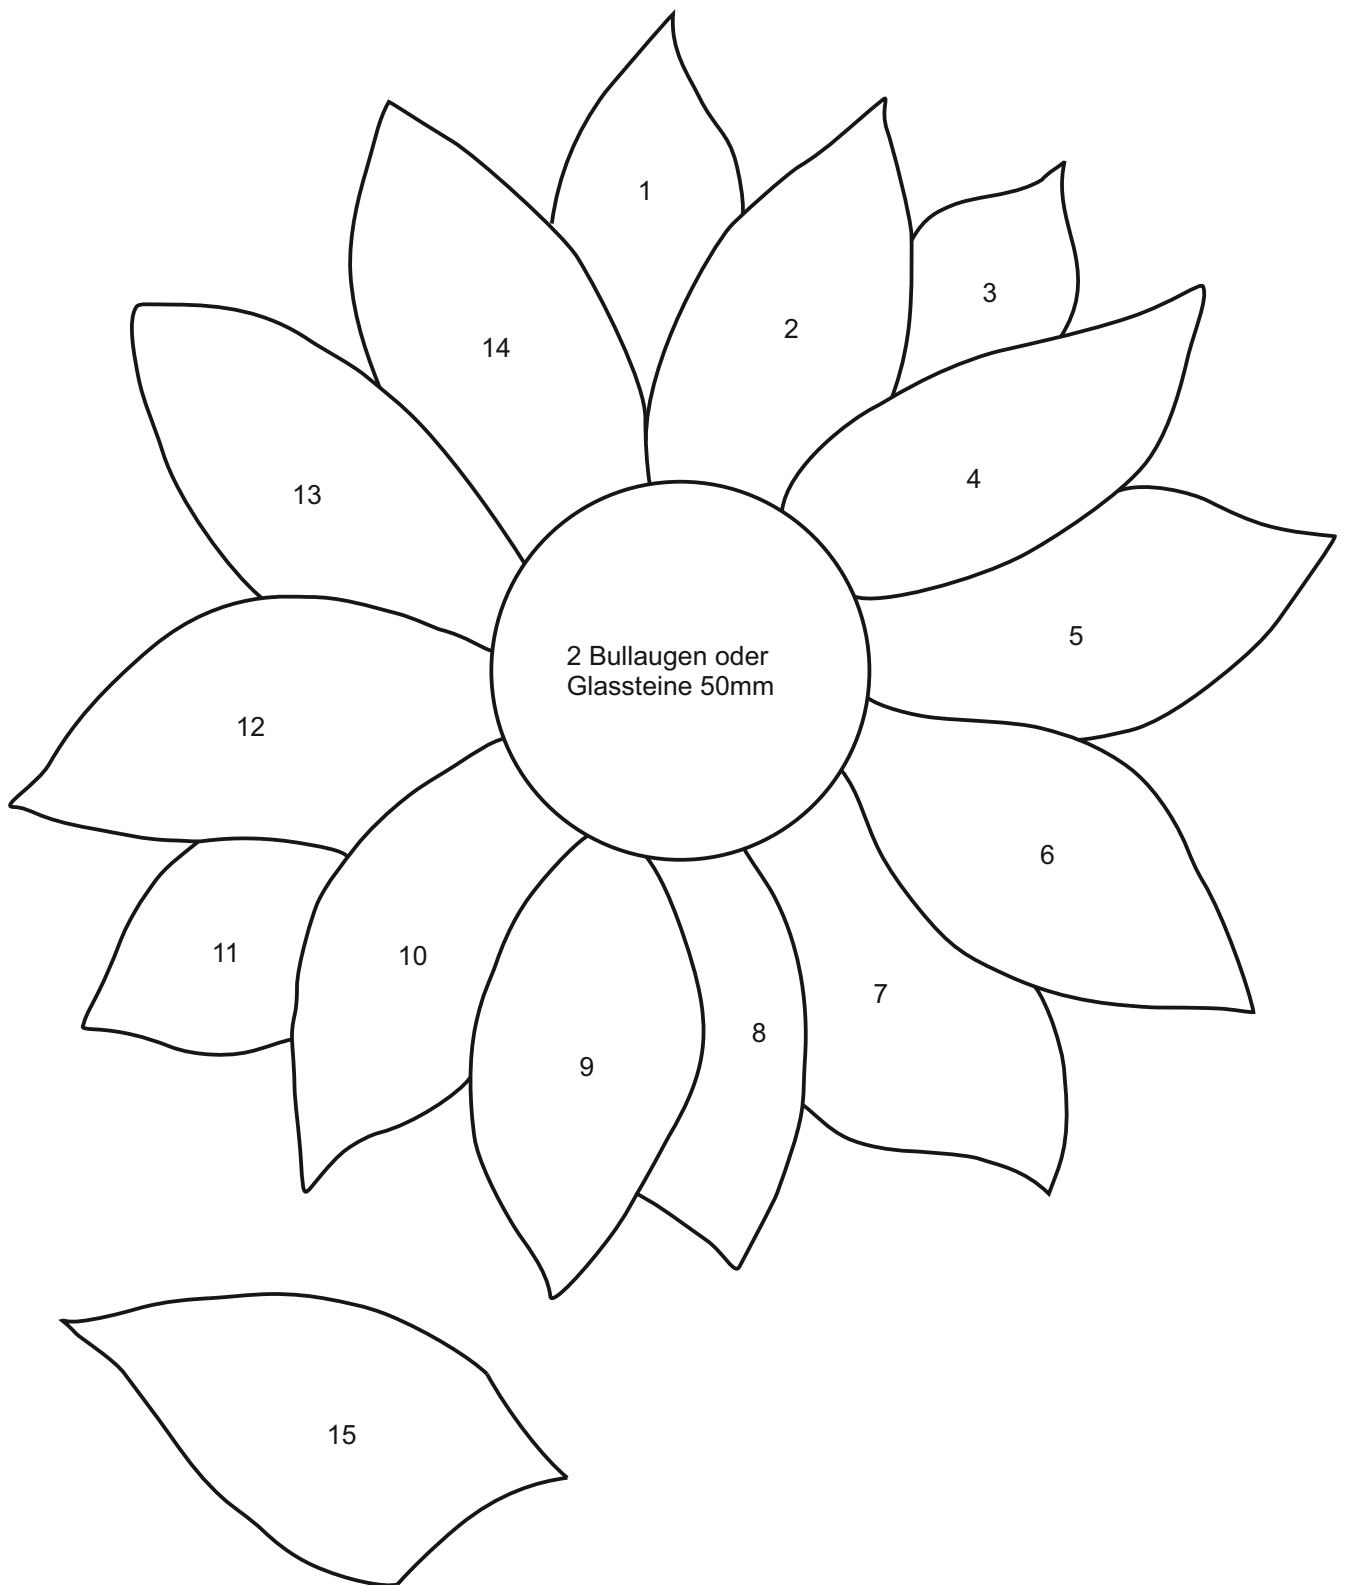

Material Sunflower:  
20 glass pieces  
2 Bullseyes or glass jewels 50mm  
copper wire 1,5mm  
brass tube 5mm

In order for the sunflower to look its best from both sides, two bullseyes or glass jewels are placed with the flat sides against each other and wrapped together with a wide copper foil.

On the sunflower, solder a copper wire, brass wire or brass tube 2mm on the seam between part 8 + 9. Insert the protruding end into the tin-plated brass tube and solder the sunflower.

Solder 1.5mm copper wire around the blades and twist the wire ends at the twist the ends and reinforce them with additional wire. The wire end solder to the brass tube. This creates a beautiful natural looking sunflower.
