Wall candle light " Facets Sparkle "

Material for one candle holder:

9 x 85 110 02 bevel straight 25,4 x 50,8 mm

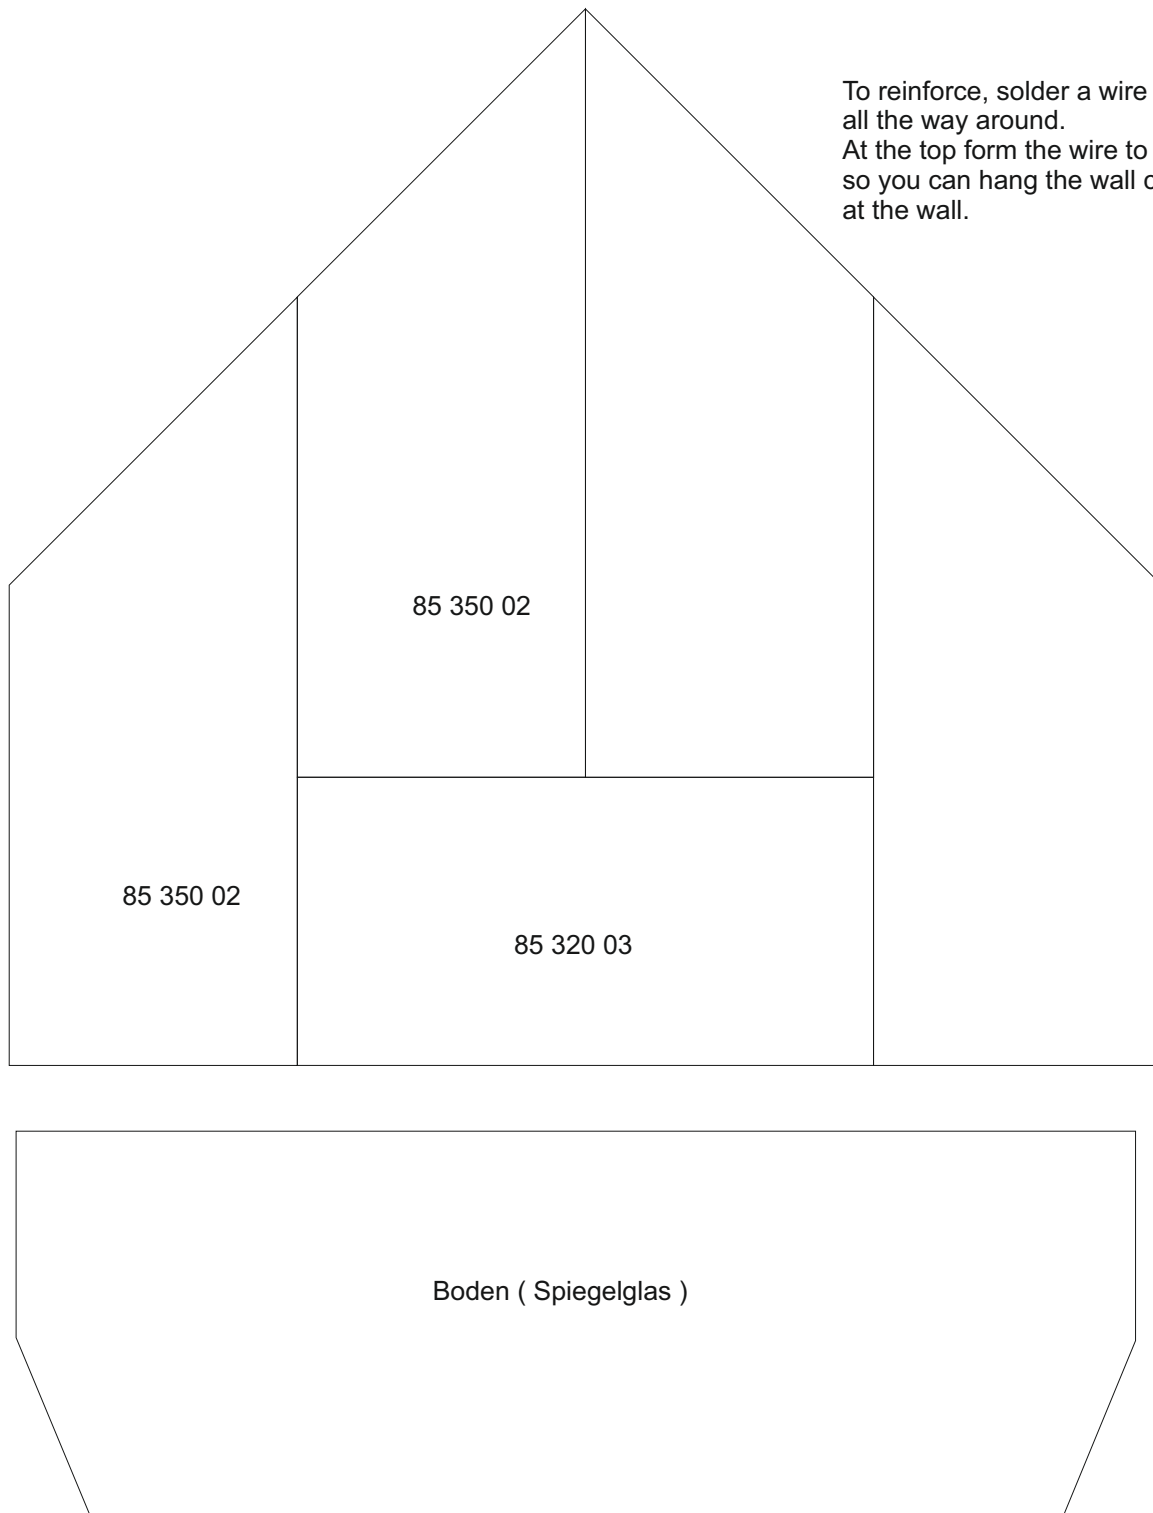

1 x 85 320 03 mirror bevel 38,1 x 76,2 mm

2 x 85 350 02 mirror bevel corner pair 38,1 x 101,6 mm

Plus the bottom cut from silver mirror

Wall Candle Light - Facets Sparkle

To reinforce, solder a wire all the way around.
At the top form the wire to an eyelet, so you can hang the wall candle light at the wall.

Leave one or two small holes in the corners of the bottom plate.
So, rainwater can drain off easily when you use the sconce to hang outside.

I recommend using mirror protective varnish on the mirror's edge before you foil it.
Also, it makes sense to let the copper foil overlap a bit wider on the back of the mirror to protect it from later oxidation.
