

## Room design - **Spring Flower** - Original size approx. 65 x 60 cm / 26" x 24"

“ Spring Flower “

Finally spring, the colors of nature .. fresh green, spring green, the first flowers of the year white, yellow, orange

.... The winter is over and the nature awakes to a new beginning. Fresh green sprouts everywhere, bright, fresh colors dominate the landscape.

This freshness combines in one flower, all year round, friendly pure freshness to the maximum!  
... this is what i have tried to incorporate in this glass picture.

Bring the flavor of freshness home!

The lightly marbled white and yellow / orange of Spectrum Glass embodies these characteristics perfectly. The "freshness" is being reinforced by the textured dichroic glass.

The soldered seams of this work are copper colored patinated, which in addition emphasizes the warm fresh character.

### Material:

Dichroic 3534218 ( UBGR-CY )

Spectrum Glas 6000-81 CC pearl white

Spectrum Glas 6067-83 CC yellow with some orange

Spectrum Glas 6076-83 CC orange with some yellow
