

Window Panel - The Christmas Tree

© www.inspiration-for-glass.com

The Christmas tree approx. 33 x 43cm / 13" x 17"

This modern glass picture convinces with its stylistic design.

The glass in the originals:

Bullseye Glass, Opalescent Glass.

These single-coloured glasses are semi-transparent. When the sun shines, the image in the window really glows.

When the background is dark, the colours are still there and do not disappear, as is the case with transparent glass.

Due to the properties of the glass you can also use this picture as a wall panel, then possibly enlarged a little.

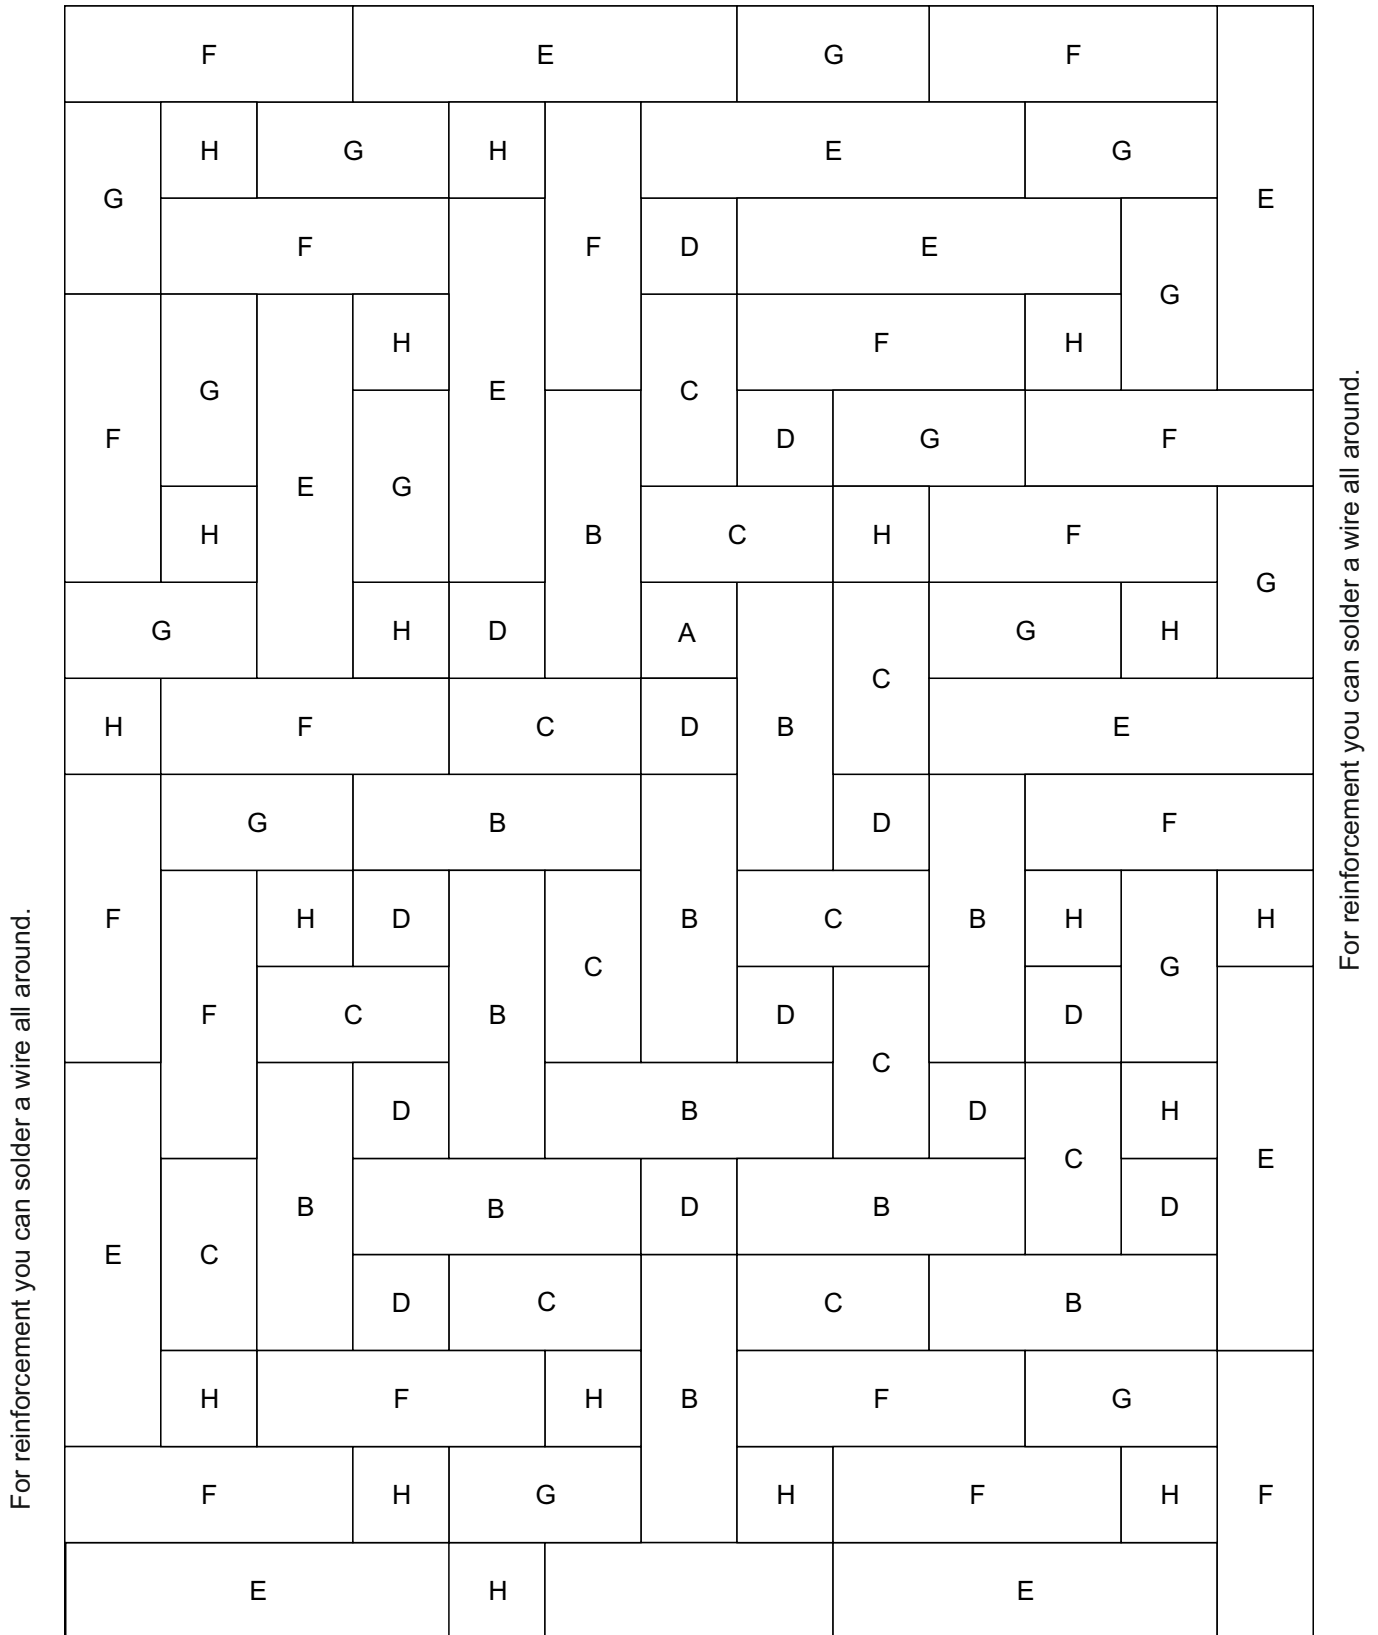

Use relatively narrow copper foil - this will automatically lead to thin and quite even soldering seams.

The design of the picture is already very stable - but you can also solder a wire as a frame.

Have fun designing your glass...

" The Christmas tree " approx. 33 x 43 cm also as coaster

For reinforcement you can solder a wire all around.

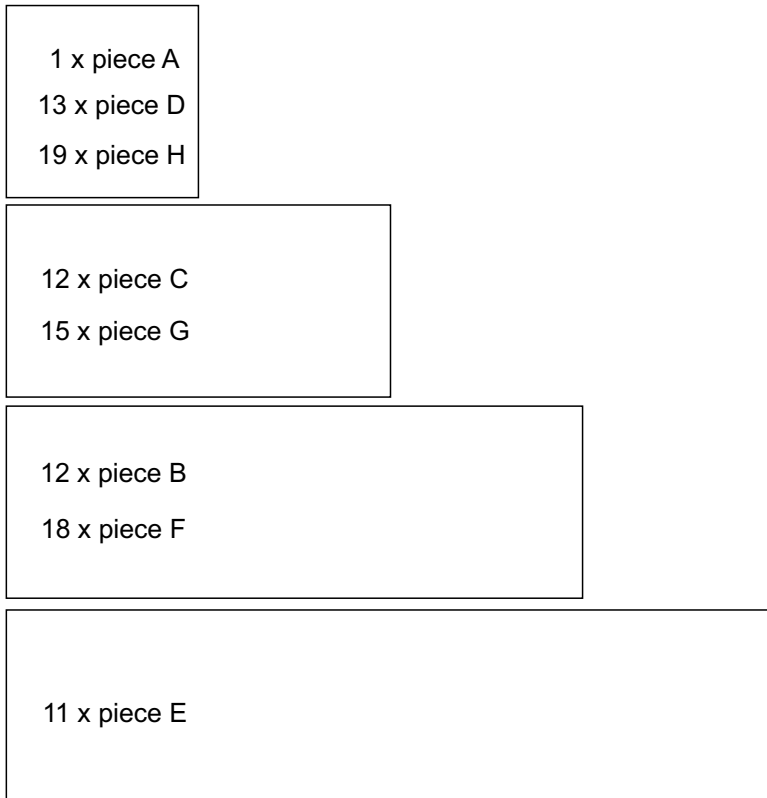

For reinforcement you can solder a wire all around.

scale 1:2

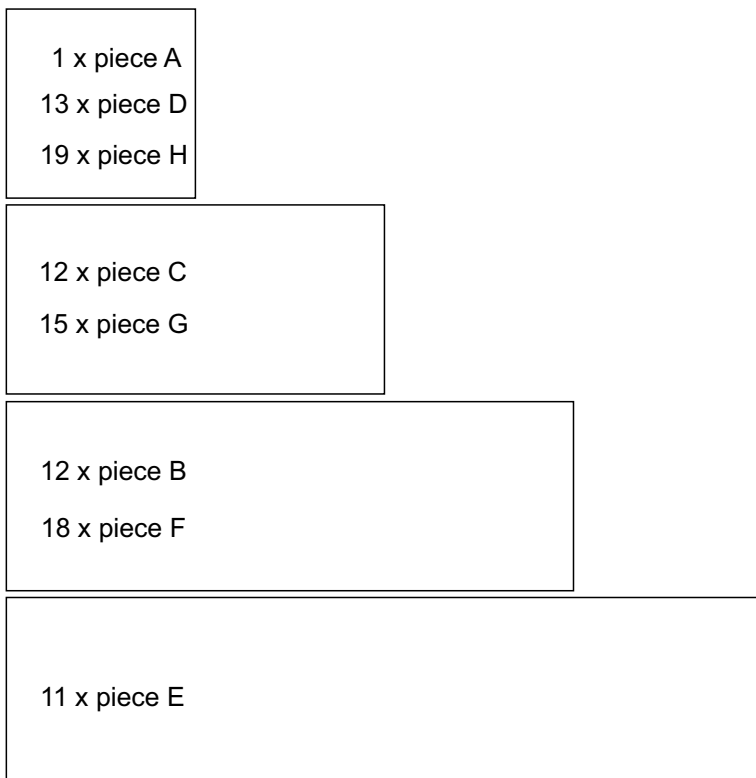

- 1 x piece A
- 12 x piece B
- 12 x piece C
- 13 x piece D
- 11 x piece E
- 18 x piece F
- 15 x piece G
- 19 x piece H

- Original size of piece A, D, H = 1" x 1" or 25 x 25mm
- Original size of piece C, G = 1" x 2" or 25 x 50mm
- Original size of piece B, F = 1" x 3" or 25 x 75mm
- Original size of piece E = 1" x 4" or 25 x 100mm
